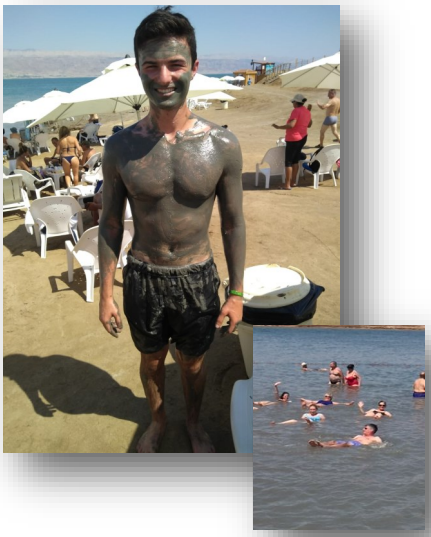
Spent an afternoon floating in The Dead Sea...1412 feet below sea level, Earth's lowest elevation on land. Herod the Great established one of the world's first health resorts here. We enjoyed it even though we hit temperatures of 98 degrees.



" This trip had so many great people to experience these ancient places together.I really loved sharing the experiences and all the conversations between us as we got inspired. I loved walking the Path of Abraham and walking in the footsteps of Jesus...in the hot scorching sun...I will think of that every time I read in Scripture, " Jesus walked…" Nolan

Resurrection Youth and Adult Holy Land Pilgrimage 2018

From the Dead Sea, we drove up to Bethlehem, to stay with local Christian families in the Christian community of Beit Sahour (Shepherd's Field). Isn't it amazing that the largest community of Christians in the Holy Land lives in the fields where the angels first told the shepherds the GOOD NEWS?!!

"This was a Spiritual and Cultural exchange among peoples of the same faith. The Palestinian Christians are a happy group, willing to share their world with us. An experience we have never seen. To be in the Holy Land is a once in a lifetime experience. I am grateful to have participated. Our pilgrimage group became a family in a short time...it's something I will never forget." Adam

"While in The Holy Land I learned a lot about the countries and the peoples. The whole experience opened a new door in my life to get a connection with the people of Palestine and Israel. To walk in the places where Abraham and Jesus and the Disciples walked was really cool and I loved getting to know all the people who came on the pilgrimage. I made memories that will last a lifetime. I cannot wait to go back!! James
